BOK Financial Reports Quarterly Earnings of \$108 million or \$1.50 Per Share
Record Annual Earnings of \$446 million or \$6.63 Per Share

CEO Commentary

Steven G. Bradshaw, president, and chief executive officer, stated, “Another strong quarter was the capstone on a record year for BOK Financial. This quarter, and all throughout the year, we saw growth in net interest margin and net interest income,

combined with strong, broad-based, loan growth. This year's outstanding loan production, led by our specialty lines of business like Energy, Healthcare and Commercial Real Estate, fueled the largest annual revenues in the history of the company. While we benefited from a healthy economy and stable credit environment in 2018, the key driver for our expanding earnings leverage was our success at maintaining expense discipline throughout the year. I couldn't be more proud of the hard work and dedication of every single one of our employees."

Bradshaw continued, "2018 also brought the largest acquisition in company history, CoBiz Financial. Integration is well underway, and we are already capitalizing on our opportunities in Colorado and Arizona - two important growth markets. I am excited for what CoBiz adds to our organization, and I am as confident in our business prospects today as I have been in years. Though there are some market headwinds that many will point to as potential roadblocks for the financial industry, I have full faith in our diversified approach to driving shareholder value. We believe we are well-positioned to continue to grow revenues and energize earnings growth in 2019."

Fourth Quarter 2018 Financial Highlights

- Net income was \$108.5 million or \$1.50 per diluted share for the fourth quarter of 2018 and \$117.3 million and \$1.79 per diluted share for the third quarter of 2018. The fourth quarter included a 15 cent per share reduction as a result of CoBiz closing and integrations costs. The third quarter included an 18 cent per share addition from a client asset management fee. The Company also issued 7.2 million shares in the fourth quarter to fund the CoBiz Financial acquisition.
- Net interest revenue totaled \$285.7 million, up \$44.8 million. CoBiz added \$43.1 million. Net interest margin increased to 3.40 percent from 3.21 percent.
- Fees and commissions revenue totaled \$160.1 million, a decrease of \$6.1 million or 4 percent.
- Operating expense increased \$32.0 million or 13 percent to \$284.6 million, including \$14.5 million of closing and integration costs. CoBiz added \$29.7 million of operating costs.
- A \$9.0 million provision for credit losses was recorded in the fourth quarter of 2018. The combined allowance for credit losses totaled \$209 million or 0.97 percent of outstanding loans and 1.12 percent of outstanding loans, excluding acquired loans.
- Period-end loans increased \$3.3 billion. Excluding \$2.9 billion of acquired loans, period-end loans increased \$393 million or 2 percent.
- The Company repurchased 525,000 shares at an average price of \$85.82 per share.

Fourth Quarter 2018 Business Segment Highlights

Commercial Banking

- Contributed \$84.6 million to net income, consistent with the prior quarter. Increased net interest revenue was offset by increased net charge-offs.
- Net interest revenue was \$148 million, an increase of \$3.2 million.
- Average loans increased \$307 million or 2 percent.

Consumer Banking

- Contributed \$2.7 million to net income, a decrease of \$5.6 million compared to the third quarter. Interest rate volatility affected the effectiveness of our mortgage servicing rights hedging strategy.
- Net interest revenue increased \$2.3 million or 6 percent.
- Fees and commissions revenue decreased \$1.2 million or 3 percent while operating expenses decreased \$1.9 million or 4 percent.

Wealth Management

- Contributed \$17.5 million to net income, a decrease of \$11.6 million compared to the prior quarter. The third quarter included a \$15.4 million fee earned on the sale of client assets.
- Net interest revenue remained consistent compared to the prior quarter at \$29.3 million.
- Average loans grew \$9.0 million or 1 percent.
- Assets under management or administration were \$76.3 billion at December 31, 2018 compared to \$77.6 billion at September 30, 2018. Fiduciary assets totaled \$44.8 billion at December 31, 2018 and \$45.6 billion at September 30, 2018.

Net Interest Revenue

Net interest revenue was \$285.7 million for the fourth quarter of 2018, a \$44.8 million increase over the third quarter of 2018. The CoBiz acquisition added \$43.1 million to net interest revenue, including \$6.4 million of net purchase accounting discount accretion.

Net interest margin was 3.40 percent for the fourth quarter of 2018, up 19 basis points over the third quarter of 2018. The yield on average earning assets was 4.33 percent, a 29 basis point increase. The yield on the loan portfolio was 5.09 percent, up 29 basis points including 12 basis points from net purchase accounting discount accretion. The remaining increase is due primarily to an increase in short-term market interest rates related to the Federal Reserve's 25 basis point rate increase in September. The yield on the available for sale securities portfolio increased 14 basis points to 2.51 percent. The yield on the trading securities portfolio was up 12 basis points.

Funding costs were 1.42 percent, up 17 basis points. The cost of interest-bearing deposits increased 10 basis points to 0.87 percent. The cost of other borrowed funds was up 29 basis points to 2.33 percent. The benefit to net interest margin from assets funded by non-interest liabilities increased to 49 basis points from 42 basis points in the third quarter of 2018.

Average earning assets increased \$3.8 billion compared to the third quarter of 2018, primarily related to the CoBiz acquisition. Average loan balances were up \$3.4 billion. Trading securities balances increased \$167 million and interest-bearing cash and cash equivalents balances decreased \$126 million. Available for sale securities increased \$576 million. Average interest-bearing deposit balances increased \$1.8 billion compared to the third quarter of 2018 and borrowed funds increased \$608 million.

Fees and Commissions Revenue

Fees and commissions revenue totaled \$160.1 million for the fourth quarter of 2018, a decrease of \$6.1 million due largely to a \$15.4 million fee earned on the sale of client assets in the third quarter. CoBiz added \$8.5 million to fees and commissions revenue in the fourth quarter of 2018. Excluding these items, fees and commissions revenue was consistent with the prior quarter.

Brokerage and trading revenue increased \$1.6 million due primarily to customer risk management products.

Mortgage banking revenue decreased \$1.7 million. Rising interest rates combined with seasonal production reductions and increased market competition decreased mortgage production volume by \$137 million. Mortgage gain on sale margins decreased 11 basis points.

Operating Expense

Total operating expense was \$284.6 million for the fourth quarter of 2018, an increase of \$32.0 million compared to the third quarter of 2018. CoBiz closing and integration costs were \$14.5 million in the fourth quarter of 2018. The following discussion excludes the impact of these costs.

Personnel expense increased \$11.5 million including \$19.3 million due to the addition of CoBiz operations. Incentive compensation expense decreased \$10.8 million mainly due to changes in vesting assumptions related to the Company's earnings per share growth relative to a defined peer group.

Non-personnel expense increased \$6.8 million. The fourth quarter included \$10.4 million related to CoBiz operations. Excluding this impact, non-personnel expense decreased \$3.6 million or 3 percent. Data processing and communications expense decreased \$4.1 million, primarily due to impairment of a software license in the third quarter. Insurance expense decreased \$2.0 million due to the elimination of a large bank deposit insurance surcharge assessed by the FDIC. The fourth quarter included a \$2.8 million contribution to the BOKF Foundation.

Income Taxes

The effective tax rate for the fourth quarter is less than 16 percent, nearly 7 percentage points lower than usual. The 2017 tax returns were finalized in the fourth quarter. This resolved several uncertainties caused by last year's Tax Cuts and Jobs Act. Resolution of these uncertainties and other routine adjustments reduced tax expense for the quarter by \$8.6 million. This is a single-quarter impact and the tax rate will revert to a 22-23 percent level.

Loans, Deposits and Capital

Loans

Outstanding loans were \$21.7 billion at December 31, 2018, up \$3.3 billion over September 30, 2018. Excluding \$2.9 billion of loans, net of fair value adjustments, added by the CoBiz acquisition, loans were up \$393 million or 2 percent. Loan growth continued to be focused in commercial and commercial real estate. The fluctuation discussion following excludes acquired loans.

Outstanding commercial loan balances grew by \$230 million or 2 percent over September 30, 2018. Energy loan balances were up \$275 million, consistent with our ongoing support and commitment to the oil and gas industry. Other commercial and industrial loans were up \$125 million. Service sector loans increased \$50 million and healthcare sector loans increased by \$47 million. This growth was partially offset by a \$182 million decrease in wholesale/retail sector loans and an \$82 million decrease in manufacturing sector loans.

Commercial real estate loan balances continued to grow, up \$122 million or 3 percent over September 30, 2018. Loans secured by office buildings increased \$79 million and loans secured by multifamily residential properties increased \$40 million.

Deposits

Period-end deposits totaled \$25.3 billion at December 31, 2018, a \$3.6 billion increase compared to September 30, 2018, including \$3.3 billion related to CoBiz. Demand deposit balances increased \$1.4 billion, interest-bearing transaction account balances increased \$2.2 billion and time deposit balances increased by \$38 million.

Capital

The company's common equity Tier 1 capital ratio was 10.92 percent at December 31, 2018. In addition, the company's Tier 1 capital ratio was 10.92 percent, total capital ratio was 12.50 percent, and leverage ratio was 8.96 percent at December 31, 2018. At September 30, 2018, the company's common equity Tier 1 capital ratio was 12.07 percent, Tier 1 capital ratio was 12.07 percent, total capital ratio was 13.37 percent, and leverage ratio was 9.90 percent.

The company's tangible common equity ratio, a non-GAAP measure, was 8.82 percent at December 31, 2018 and 9.55 percent at September 30, 2018. The tangible common equity ratio is primarily based on total shareholders' equity, which includes unrealized gains and losses on available for sale securities. The company has elected to exclude unrealized gains and losses from available for sale securities from its calculation of Tier 1 capital for regulatory capital purposes, consistent with the treatment under the previous capital rules.

Credit Quality

Nonperforming assets totaled \$267 million or 1.23 percent of outstanding loans and repossessed assets at December 31, 2018, compared to \$261 million or 1.42 percent at September 30, 2018. Nonperforming assets that are not guaranteed by U.S. government agencies totaled \$174 million or 0.81 percent of outstanding loans and repossessed assets (excluding those guaranteed by U.S. government agencies) at December 31, 2018, compared to \$170 million or 0.93 percent at September 30, 2018. The CoBiz acquisition added \$18 million to nonperforming assets during the fourth quarter, net of fair value adjustments.

Nonaccruing loans were \$163 million or 0.75 percent of outstanding loans at December 31, 2018. Nonaccruing commercial loans totaled \$100 million or 0.73 percent of outstanding commercial loans. Nonaccruing commercial real estate loans totaled \$22 million or 0.45 percent of outstanding commercial real estate loans. Nonaccruing residential mortgage loans totaled \$42 million or 1.86 percent of outstanding residential mortgage loans.

Excluding CoBiz, nonaccruing loans decreased \$2.2 million from September 30, 2018. Wholesale/retail sector loans decreased \$8.6 million, energy loans decreased \$7.5 million and healthcare sector loans decreased \$4.6 million. These decreases were partially offset by a \$20 million increase in nonaccruing retail sector loans. New nonaccruing loans identified in the fourth quarter totaled \$44 million, offset by \$31 million in payments received and \$15 million in charge-offs.

Potential problem loans, which are defined as performing loans that, based on known information, cause management concern as to the borrowers' ability to continue to perform, totaled \$215 million at December 31, compared to \$176 million at September 30. The increase was primarily due to the addition of \$65 million of acquired potential problem loans. Potential problem loans from the legacy BOKF portfolio decreased \$26 million.

Net charge-offs were \$12.3 million or 0.23 percent of average loans on an annualized basis for fourth quarter of 2018, compared to \$9.0 million or 0.20 percent of average loans on an annualized basis for the third quarter of 2018. Net charge-offs were 0.18 percent of average loans over the last four quarters. Net charge-offs for the fourth quarter were primarily related to a single wholesale/retail sector borrower and a single energy production borrower, both of which had previously been identified as impaired and appropriately reserved. Gross charge-offs were \$14.5 million for the fourth quarter compared to \$11.1 million for the previous quarter. Recoveries totaled \$2.2 million for the fourth quarter of 2018 and \$2.1 million for the third quarter of 2018.

Based on an evaluation of all credit factors, including overall loan portfolio growth, changes in nonaccruing and potential problem loans and net charge-offs, the company determined that a \$9.0 million provision for credit losses was appropriate for the fourth quarter of 2018. The company recorded \$4.0 million provision for credit losses in the third quarter of 2018.

The combined allowance for credit losses totaled \$209 million or 0.97 percent of outstanding loans and 134 percent of nonaccruing loans at December 31, excluding residential mortgage loans guaranteed by U.S. government agencies. Excluding loans from the CoBiz acquisition, which are measured at acquisition-date fair value, the combined allowance for loan losses was 1.12 percent of outstanding loans and 146 percent of nonaccruing loans at December 31. The allowance for loan losses was \$207 million and the accrual for off-balance sheet credit losses was \$1.8 million. At September 30, the combined allowance for credit losses was \$213 million or 1.16 percent of outstanding loans and 146 percent of nonaccruing loans, excluding loans guaranteed by U.S. government agencies. The allowance for loan losses was \$211 million and the accrual for off-balance sheet credit losses was \$2.0 million.

Securities and Derivatives

The fair value of the available for sale securities portfolio totaled \$8.9 billion at December 31, 2018, a \$785 million increase compared to September 30, 2018. At December 31, 2018, the available for sale securities portfolio consisted primarily of \$5.8 billion of residential mortgage-backed securities fully backed by U.S. government agencies and \$3.0 billion of commercial mortgage-backed securities fully backed by U.S. government agencies. At December 31, 2018, the available for sale securities portfolio had a net unrealized loss of \$95 million compared to a \$217 million net unrealized loss at September 30, 2018.

Trading securities increased \$344 million to \$2.0 billion during the fourth quarter of 2018 as a result of the company providing continued liquidity to its core client base of mortgage originators. The company holds an inventory of trading securities in support of sales to a variety of customers, including banks, corporations, insurance companies, money managers, and others.

The company also maintains a portfolio of residential mortgage-backed securities issued by U.S. government agencies and interest rate derivative contracts as an economic hedge of the changes in the fair value of our mortgage servicing rights.

The net economic cost of the changes in fair value of mortgage servicing rights and related economic hedges was \$11.7 million during the fourth quarter of 2018, including a \$24.2 million decrease in the fair value of mortgage servicing rights, a \$11.9 million increase in the fair value of securities and derivative contracts held as an economic hedge, and \$695 thousand of related net interest revenue largely driven by a 60 basis point drop in the primary mortgage interest rate in the last two months of the fourth quarter.

The fair value of mortgage servicing rights increased by \$6.0 million during the third quarter of 2018. The fair value of securities and interest rate derivative contracts held as an economic hedge of mortgage servicing rights decreased by \$7.2 million. Related net interest revenue was \$1.1 million during the third quarter of 2018.

Commercial Banking

Net income for Commercial Banking was \$84.6 million for the fourth quarter of 2018, consistent with the third quarter of 2018. Increased net interest revenue was offset by increased net charge-offs.

Average loan balances increased \$307 million or 2 percent, largely due to increases in energy and commercial real estate loans. Average customer deposits were \$8.4 billion, a decrease of \$240 million or 3 percent, mostly due to the energy and real estate sectors. The fourth quarter of 2018 saw a shift in the deposit mix with demand deposit balances declining \$330 million and interest-bearing transaction deposits increasing \$95 million.

Both fees and commissions revenue and operating expenses were consistent with the third quarter of 2018. There has been continued success in leading syndicated loan transactions, which has led to a record year for syndication revenue.

Consumer Banking

Net income from Consumer Banking was \$2.7 million in the fourth quarter of 2018, a decrease of \$5.6 million or 67 percent. The net economic cost of the changes in fair value of mortgage servicing rights and related economic hedges was \$11.7 million for the fourth quarter of 2018 compared to \$156 thousand for the third quarter of 2018.

Net interest revenue from Consumer Banking activities increased \$2.3 million. Average loans increased \$26 million or 2 percent over the third quarter of 2018. Average deposits decreased \$38 million or 1 percent due to a seasonal reduction in mortgage escrow accounts related to annual property tax payments.

Revenues from mortgage banking activities decreased \$1.6 million from the prior quarter due to rising interest rates, increased market competition and seasonal production decreases. Mortgage production volume declined 21 percent compared to the prior quarter. Operating expenses decreased \$1.9 million as expenses are reduced to align with lower mortgage production.

Wealth Management

Net income for Wealth Management decreased \$11.6 million to \$17.5 million during the fourth quarter of 2018. This decrease included an after tax benefit of \$11.5 million as a result of a fee earned on the sale of client assets in the third quarter. Excluding this fee, fiduciary and asset management fees produced relatively consistent results compared to the third quarter of 2018.

Average loans increased \$9 million or 1 percent to \$1.4 billion. Average deposits were stable at \$5.5 billion. Assets under management or administration were \$76.3 billion at December 31, 2018 compared to \$77.6 billion at September 30, 2018. Fiduciary assets totaled \$44.8 billion at December 31, 2018 and \$45.6 billion at September 30, 2018.

Conference Call and Webcast

Yield calculations are shown on a tax equivalent basis at the statutory federal and state rates for the periods presented. The yield calculations exclude security trades that have been recorded on trade date with no corresponding interest income and the unrealized gains and losses. The yield calculation also includes average loan balances for which the accrual of interest has been discontinued and are net of unearned income. Yield/rate calculations are generally based on the conventions that determine how interest income and expense is accrued.
